Open Source Contributions

WordPress

Currently I'm maintaining below WordPress plugins in WordPress.org Plugin Repository-

WooCom ACCOUNT WIDGET

This plugin provides a widget which will help user to login at widget as well as show various WooCommerce data in frontend. It is developed thinking about developers.

WooCom CC INVOICE

This is a WordPress plugin and WooCommerce add on. This plugin provides the opportunity to the buyers to send the invoice to other third party email address..

WooCom ADD MULTIPLE PRODUCTS

This plugin adds the functionality to add bulk products from one input. It adds an input field at the end of cart page. From this input field you can add multiple products to cart by Ajax request.

TINY YOUTUBE POST WIDGET

This is a widget to display different YouTube videos in widget assigned for different posts or pages.

GitHub

Here it's one of my notable open source contribution other than plugins-

THEDRAMATIST SETTINGS API

This is a **Composer** library package to enhance the usage of **WordPress** settings API.

THEDRAMATIST BOILERPLATE

This is a boilerplate for WordPress with modern PHP development approach. It's goal is to simplify and speed up the process of creating new packages for the daily WordPress work. I created it for my personal usage.

Framework Based

tCableBilling,

An automated recurring billing system for cable TV network monthly bill generation. Built with Laravel 5.2. Hosted at GitHub.

VectorMode,

A localhost based Point of Sale software built with Laravel 5.2. Hosted at GitHub.
